## **Preface**

Yamaha Music Foundation is an organization established by the authority of Japanese Ministry of Education, Culture, Sports, Science and Technology for the purpose of promoting music education and music popularization. Its unique, systematic teaching method and teacher training programs are highly evaluated not only in Japan but also in other countries.

The Yamaha Grade Examination System has been developed to enable students and teachers to ensure their own progress and thereby obtain self-confidence in their own music studies.

The contents of Electone Performance Grade 10-6 examinations are designed to cover various kinds of elements of musical knowledge and indicate the direction that the students should follow.

The result of the examination will help the applicants to acquire the richer ability of music.

The YAMAHA GRADE EXAMINATION SYSTEM consists of thirteen grade levels, Grade 13 to Grade 1. The Examination evaluates the performing ability of the music lovers in general; the performing ability and the musical knowledge and techniques required for the instructors of the fundamentals stage; and also the performing competence of the professional musicians.

Both Piano and Electone Performance Grades are held from Grade 13 to Grade 3. Grade 13 to Grade 6 are for the musical lovers and the students of music schools; Grade 5 to Grade 3 are the professional grades for those who intend to be the instructors. Fundamentals Grades are also in the higher stage for instructor qualification which requires comprehensive musical knowledge and performance. Those who intend to be instructors of Yamaha Music Education System must obtain Grade 5 or higher in either Piano or Electone Performance Grade and the Fundamentals Grade as well.

## **Difference between the Course-A and Course-B**

There are two types of the Electone Performance Grades 10-6: Course-A and Course-B. Applicants choose and apply for one of them, and take the exam.

Course-A is performance-oriented and the subjects are Free Selection, Compulsory piece and Improvisation (arrangement).

Course-B is comprehensive and the subjects are Free Selection, Sight Playing, Accompaniment / Improvisation and Hearing.

Even though there is a difference between Course-A and B as above, the musical requirements of both courses are very high and it would be a great encouragement to applicants.
